React.js • Python (basics) • SQL •
Mongodb • Java (basics)

Familiar:

• Git/Github • VS code • MYSQL • MS
Office • Adobe Photoshop • Canva

Language :

• English • Hindi

COURSEWORK

GRADUATE

Computer Networks
Operating System
Database management system
Machine Learning
Object Oriented Programming
Web Technology
Software Engineering and Practices
Data Structures And Algorithms
Compiler Technique
Design and Analysis of Algorithms
Cloud Computing

RESPONSIBILITY

• **Design Team Lead** at Literary Club, NSS
and Ecell, IET-DAVV.
• **Anchor** of **TEDx** and **E-Summit'23**
Techfest of IET-DAVV.

OBJECT

- Have ability to effectively communicate with end-users and other developers in a global, team based environment. Have strong inter-personal skills with ability to communicate thoughts, designs, and implementations in both written and verbal form and I have results-oriented, self-starter with positive "can-do" attitude.

EXPERIENCE

ACCENTURE NORDICS DEVELOPER JOB SIMULATION

- Analysed project architecture and identified missing infrastructure components. Differentiated between IaaS and PaaS, recommending cloud-based solutions for Digital Health. Developed skills in security, programming, and testing. Practiced Agile and Waterfall methodologies. Improved debugging, analysis, and maturity level assessment skills.

PROJECT

IET-PLACEMENT INSIGHTS | Fullstack

- Created a Full Stack Web Application with my 2 batchmates as a group project for our College students.
- It provide detailed reviews and insights from seniors or the recruits from the ongoing placement drives of IET.
- Apart from the experiences, resources for placements, interview tips etc. are also provided.

CURRENCY CONVERTER | HTML5, CSS, JS | Project Link

- This project contains a simple yet effective Currency Converter web application. The application allows users to convert between different currencies with real-time exchange rates.
- It is built using HTML for the structure, CSS for styling, and JavaScript for dynamic functionality also utilizes a currency exchange API.

E-COMMERCE WEBSITE CLONE | HTML5, CSS | Project Link

- This project is a comprehensive clone of the Amazon website, designed to replicate its key features and functionality.
- I've utilized HTML for structuring the web content and CSS for styling, ensuring that each page is beautifully presented, easy to navigate, and responsive across various devices.

MY PORTFOLIO | HTML5 | Project Link

- My portfolio embodies a clean and minimalistic design aesthetic, allowing visitors to focus on the content and projects without distraction. I've leveraged HTML's structure and semantics to create well-organized and accessible web pages.

ACHIEVEMENTS

- **Fundamental of Digital Marketing** certified by **Google Digital Garage**.
- Certification in **TCS iON Career Edge - Young Professional** course.
- **Grade 'B' certificate** from **NSS IET-DAVV**.
- **SIH'23 Team Lead** and qualified internal hackathon.
